ABOUT ME

Computer Science and Software Engineering student at BINUS University with a strong interest in machine learning, web development, and AI engineering. Passionate about utilizing technology to simplify daily activities, demonstrating practical experience in full-stack development, UI/UX design, and data integration.

WORK & ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Teknik Informatika BINUS University

Human Resources (HR) Staff Division — HIMTI 2026/2027 — APR 2026 - Present

- Managed member recruitment, onboarding, and talent development initiatives to foster a collaborative and productive organizational culture.
- Facilitated internal communications, team-building activities, and performance tracking to ensure high engagement among organization members.

Publication & Marketing Activist — MAR 2025 - MAY 2026

- Managed digital publication and marketing initiatives for the @ofogether campaign, creating engaging content to boost student participation and organizational visibility.
- Maintained social media presence and executed communication strategies to align with HIMTI's core objectives

Staff of Registration & Fundraising — LDKCP 2026 — JUN 2026

- Managed the end-to-end participant registration workflow and maintained accurate attendee databases for the leadership training program.
- Executed targeted fundraising strategies to secure financial support and operational funding for the event.

Coordinator of Disciplinary Division — HILET 2026 — NOV 2025 - DEC 2025

- Formulated and enforced event guidelines to ensure a structured, safe, and orderly environment for all participants throughout the event.

Project Manager — Krom Bank Company Visit — APR 2025 - NOV 2025

- Directed the end-to-end planning and execution of a corporate visit to Krom Bank, bridging computer science students with tech industry professionals.
- Coordinated cross-functional teams to manage event logistics, scheduling, and participant engagement to ensure a smooth event workflow.

Committee Member — TECHNO 2025 — SEP 2025

- Curated stagecraft props and character wardrobe for theatrical performance.
- Coached and directed on-stage actors to deliver an engaging storyline.

Volunteer IT Tutor — Computer Tutoring Program — FEB 2025

- Instructed primary and middle school students in foundational digital literacy, covering basic computer operations, Microsoft Word, and digital graphic tools.
- Cultivated early problem-solving skills by introducing algorithmic thinking through interactive block-based logic and educational puzzle games.
- Developed student-centered teaching methods designed to foster creativity and build long-term confidence in using digital technology.

EDUCATION

Computer Science - SoftwareEngineering — Bina Nusantara University 2024 - Expected Graduation: 2028

PROJECTS

- FuelWise Tracker: Engineered a Python application to analyze vehicle fuel efficiency and estimate route travel costs by processing vehicle datasets and implementing custom calculation logic.
- Override: Built a full-stack personal web application to securely store memories and display randomized positive entries using Node.js.
- eNVision: Designed an interactive web prototype for an eyewear catalog featuring HTML, CSS, and JavaScript form validation.
- CTGAN Synthetic Data Research: Conducted academic research on mitigating concept drift in synthetic data generation by extracting features from SMS and WhatsApp datasets and training CTGAN models for messenger spam and scam detection.
- Recommendation & NLP Tools: Developed a content-based skincare ingredient recommendation engine and a text sentiment analysis application using Python, pre-trained models, and Streamlit.

SKILLS

- Programming: Python, Java, C, SQL, JavaScript, HTML, React
- AI & Machine Learning: Scikit-learn, PyTorch, Pandas, Hugging Face, CTGAN
- Tools & Frameworks: Node.js, FastAPI, Flask, Streamlit, Docker, Git, Postman, Katalon Studio
- Design: Canva, Figma (UI/UX Design, Wireframing, Prototyping)

ADDITIONAL

- Fluent in English and Native in Indonesia
- Portfolio Website: https://portfolio-asa-chi.vercel.app
